

# Anti-Bias Leadership Seminar

"This is the most impactful training  
I think I have ever taken"

The foundational workshop of Threads of Justice Collective – developed to nurture the next generation of leaders in anti-bias/anti-oppression education for young children, their families and their care and education providers.

The intensive format for the Seminar (24 hours) allows us to build community and invite the depth and honesty required for authentic personal and institutional change.

Next Seminar:  
August 6–8, 2025
