

STEM Micro-Credential

OregonASK, the National Afterschool Association, and Click2Science are partnering to recognize out-of-school time staff for their competency in offering high quality STEM experiences in their programs. Staff who participate in this pilot program will have the opportunity to demonstrate their skill and earn a STEM Micro-Credential with a digital badge to share their accomplishment.

Participants should plan for about 7 hours in training, coaching, and observation. Participants will receive 5 hours of professional development credit from the Oregon Registry.

If you are interested in this unique opportunity to be recognized for your expertise in offering STEM lessons in afterschool register for one of the in-person training sessions. Your Click2Science Coach/Trainer will follow up with you about what's next!

September 8

9:00 AM – 12:00 PM

Gilbert House Children's Museum
116 Marion Street NE, Salem
Register at <http://conta.cc/2polls1>
