

INVENTION

Using the **Five Stage Invention Process** for School Age Youth

The InventionX five-stage invention process teaches students how to think, not what to think. The process and exercises can be applied to any area of STEM content. Participants will experience the invention process through hands-on activities and create strategies for implementing the process in their own program or classroom.

All participants will receive a copy of the Invention X Educator Guide.

Saturday, October 3rd, 9 am - 4 pm
9140 SW Pioneer Ct. · Wilsonville Oregon 97070

Training participants will receive 6 hours of Set Two credit (pending) from the Oregon Registry in the Core Knowledge category of Learning Environments and Curriculum.

Register online at www.oregonask.org
Lunch Provided
