

Quality Programs Series

Module 1: **Framework for Quality**

Nov. 11 - Dec. 15, 2013

What is a quality program? What are the components that are included? What are best practices for the field of afterschool? Join us as we examine the research, resources and tools available to define quality afterschool programming and how to measure quality. Set Two CKC: PM

Module 2: **Program Organization**

Jan. 8 - Feb. 15, 2014

Quality programs begin with how the program is structured and governed. Research shows that leadership and staff characteristics play a key role in quality programming. In this session we will explore the role of leadership and how the governance structure of a program can greatly influence the quality. In addition, we will discuss the relationship between program structure and staff characteristics to positive student outcomes. Set Two CKC: PM

Module 3: **Academic Practices and Youth Outcomes**

Feb.18 - Mar. 21, 2014

Three common factors for quality programs and academic programming include goals, standards based learning and research based curriculum. In this module we will explore instructional practices and how academic skill development can encourage students to build social skills and facilitate learning. Set Two CKC: LEC

Module 4: **Positive Relationships and Youth Engagement - Mar. 31 - May 4, 2014**

Supportive relationships with schools, families, communities, students and staff can make a program thrive. Join us as we examine the critical components to positive relationships and how they can dramatically impact the quality of the program and positive outcomes for students. Set Two CKC: FCS & HGD

Module 5: **Measuring Program Success**

May 5 - June 8, 2014

Being accountable for program outcomes is crucial for measuring quality. Internal and external evaluation methods measure program efforts, provide data for future planning and create powerful messages when communicating with schools and communities. We will discuss methods for evaluation and the challenges that can exist when a program begins to be accountable for their goals and objectives. Set Two CKC: PM

A 1 hour Webinar on the first day, kicks off these 10 hour hybrid trainings taught by Tammy Marino. Participants will have materials and assignments to completed no later than the end date.

Cost: \$100/per module OASK/NAA Members, \$125/module Non-members

Want to talk with someone about how the Quality Modules fit into your professional development plan? We would love to talk with you - call us at 503-689-1656.

**Training modules can be taken individually or sign up for the entire series!
