SciGirls, an award winning PBS KIDS series, website and national outreach initiative, is changing how millions of tween girls think about science, technology, engineering and math, or STEM! In each episode, animated characters Izzie and her best friend Jake find themselves in jams only science can fix. To set things right, Izzie calls on bright, curious real-life SciGirls, who put STEM to work and save the day. Izzie also invites viewers to hang out on the website - [pbskids.org/scigirls](http://pbskids.org/scigirls) - a totally safe, social networking environment where girls can play games, connect, create personal profiles and avatars, share projects and watch every episode.

SciGirls is produced for PBS by National Productions and is made possible by the National Science Foundation. Additional support by L'Oreal USA's For Girls in Science program, Northrup Grumman Foundation, and PPG Industries Foundation. SciGirls®/© 2013 Twin Cities Public Television, Inc. All rights reserved.
