"Your toddler throws a tantrum in the middle of a store. Your preschooler refuses to get dressed. Your fifth-grader sulks on the bench instead of playing on the field.... The "upstairs brain," which makes decisions and balances emotions, is under construction... And especially in young children, the right brain and its emotions tend to rule over the logic of the left brain... you can turn any outburst, argument, or fear into a chance to integrate your child's brain and foster vital growth." (Dr. Dan Siegel's website)

**Cost: \$100 per ticket, discount of \$20 per ticket for groups of 10 or more
Ticket includes lunch. Advanced registration required.**
